

Come Over

Nathan Evans

It's late at night and I start thinking
About your hand in mine
It's late at night and I start drinking
And thinking about the times
That I should not send those texts
I knew I regret
But sometimes, you do things when you're desperate
And my life has been a mess
Ever since you left
'Cause you're still the one holding me up

And so come over
And then we'll fix it all tonight
And I wanna hold you
Remember the times we didn't fight
So come over
And we can talk away the time
Just like we used to
'Cause you're the one who made me feel alive

If you could see me now
I think we'd work it out
A lot has changed since the last time, yeah
'Cause I was just a kid
Far too young to know
Don't know what you've got till it's gone

And so come over
And then we'll fix it all tonight
And I wanna hold you
Remember the times we didn't fight
So come over
And we can talk away the time
Just like we used to
'Cause you're the one who made me feel alive

And I replayed our summer night
And I swear I could've died happy
Living in the moment like it was my last
And I replayed our summer time
Living life when you were mine
Living in the present, not the past

So come over
And we'll fix it all tonight
And I wanna hold you
Remember the times we didn't fight
So come over
And we can talk away the time
Just like we used to
'Cause you're the one who made me feel alive
