

Under the city lights we become dreamers
We won't forget the nights that gave us that feeling
It's been so long since I've seen you smile, my friends

I'm waking up every night thinking of all of the places I wanna
go
The flags will be flying held up in the sky, will be coming on
down the road
But don't forget where we're coming from, my friends

And there's a place I know
There's magic where the flowers grow
And beauty where the rivers flow
Up over hills and country roads
Scotland is a place called home

I've walked so many miles, the feeling gets stronger
I know it's been a while, but it won't be long, yeah
It's been so long since I've seen you smile, my friends

I'm waking up every night thinking of all of the places I wanna
go
The flags will be flying held up in the sky, will be coming on
down the road
But don't forget where we're coming from, my friends

And there's a place I know
There's magic where the flowers grow
And beauty where the rivers flow
Up over hills and country roads
Scotland is a place called home
