He is beauty personified
Risen and glorified
Fairer than the words could ever tell about Him
There has never been
And will never be
One so beautiful like Him

Show me one so wonderful like Him

He is beauty personified
Risen and glorified
Fairer than the words could ever tell about Him
There has never been
And will never be
One so beautiful like Him

He is beauty personified
Risen and glorified
Fairer than the words could ever tell about Him
There has never been
And will never be
One so beautiful like Him

He is beauty personified

Risen and glorified
Fairer than the words could ever tell about Him
There has never been
And will never be
One so beautiful like Him

He is beauty personified
Risen and glorified
Fairer than the words could ever tell about Him
There has never been
And will never be
One so beautiful like Him

He is beauty personified
Risen and glorified
Fairer than the words could ever tell about Him
There has never been
And will never be
One so beautiful like Him

Show me one so beautiful like You
Like You
My darling Jesus
Would you show me one so beautiful like You
Because I've never found
Like You Jesus

Yeshua is beauty personified
Risen and glorified
Fairer than the words could ever tell about Him
There has never been
And will never be
One so beautiful like Him
