David And Goliath

Nathaniel Rateliff

Can I get out of my head
I don't know
Somebody let me go
If I'm falling now
Every time I knew and ran
Set me on my feet
As someone else

These negative thoughts feel crazy
Well, why should I even care
I want to be different now
I'm a square peg feeling round

Turn me around and then
Send me home
Baby, I don't even know
I don't...
And it's fucking hell
And the old me is saying

Another round to kill
Never time to heal
That's how your story goes

I want it my way
Closing my eyes, baby
I'll find a way out

The reckoning is wrecking me
And nothing I've found
Can keep me from spinning out

It tells me I'm on a run
Then I'm back in the shadows, Hon
The sun can't shine for me every day

I'm out on the road again
And all of the older heads
Keep calling me
They say try to be gracious
