

# Howling At Nothing

Nathaniel Rateliff

Some are waving it around  
Someone carried me home  
One was never noticed sleeping on the floor  
But I know we were there

Some were playing around  
Some were dipping so low  
It never seemed to matter as the night slipped away  
Cause there was soul in the air

We were howling at the moon  
We were shaking our hips  
Danced until we flat out falling into bed  
But I won't let you go

So let me in or let me down  
Let me lay here so slow  
Baby just keep holding got to move our feet  
Cause you know it ain't end

Step it in or step it out  
Cut it all in and run  
Kept on 'til it mattered baby I don't even see  
But I know we were there

We were howling at the moon  
We were shaking our hips  
Danced until we flat out falling into bed  
But I won't let you go

We were howling at the moon  
We were shaking our hips  
Danced until we flat out falling into bed  
And I won't let you go

Danced until we flat out falling into bed  
Said I won't let you go
