

# Right On

Nathaniel Rateliff

When you get tired of the wings that carry you nowhere  
You stretch out your arms to see if the wind will blow you over  
It seems like it's tightening, the line in the crease of your shoulder  
But never in after gift of the ground  
Remember the good work you done  
Remember there's always some feeling, when you try to sing like  
Do do do da daaaa do daa  
Do do do da daaaa do daa

Say you come with me  
Tell me tomorrow  
Softer in their eyes  
Sleep in the arrow  
Say that you're with me  
And we leave tomorrow  
And sleep through the daylight  
Leave all the sorrow  
It stands, to wave us and more  
I am, am older right on  
I march all over  
This space, has a name, that you can't, put fame, to at all  
Do do do da daaaa do daa  
Do do do da daaaa do daa

It seems like the timing are complete in the mist of the measure  
And the wind did'n smile then wave than forever  
Well I know it's right cause  
The pitch, and the punch on the lips and it love so smooth  
You'll have to try and guess where it landed  
I'm made be the march all over  
And made be ruler all over  
We're all together, right on, right on  
Do do do da daaaa do daa  
Do do do da daaaa do daa

Say you come with me  
Tell me tomorrow  
Softer in their eyes  
Sleep in the arrow  
Say that you're with me  
We leave tomorrow  
Sleep through the daylight  
Leave all the sorrow  
Mhm mhmh mhmhmh  
Do do doooo do doo do do  
Do do doooo do doo do do  
Do do doooo do doo do do  
Do do doooo do doo do do  
Do do doooo do doo do do  
Do do doooo do doo do do
