

## Rush On

Nathaniel Rateliff

I hoped it would heal  
Or you'd wake when it was over  
Now counting the days  
Since your breath had closed your eyes

Rush on, rush on  
Rush on, rush on  
And now you sleep forever  
Rush on, rush on  
Rush on, rush on

How easy you left  
Remembering all your laughter  
But deep in your chest  
Was a moan that never ends

Rush on, rush on  
Rush on, rush on  
If I find you, I will wake you  
Rush on, rush on  
Rush on, rush on

I'd hoped like a prayer  
That your brokenness would leave you  
But months turned to years  
And the emptiness prevailed

Rush on, rush on  
Rush on, rush on

All the love and cries could not shake you from your rest  
Would've given up my sight to take the jaundice from your skin

Rush on, rush on  
Rush on, rush on  
And now you sleep forever  
Rush on, rush on  
Rush on, rush on
