

# Something Beautiful

Nathaniel Rateliff

I was out  
Skippin' stones  
In the end it's what you know  
Found my feet  
They were firm  
What you leave is what you burn  
Won't find me  
In the second verse  
Never found me in the first

Away  
Does it bound and break  
And you look so vain

Broke my heart  
Broke my will  
It was all so much to fill  
Every turn  
Every road  
It would all lead back to you  
Feel my words  
Running out  
How we end we're livin' down

Away  
And I have a say  
And it's not too late

Show me something beautiful  
Show me something beautiful  
Show me something beautiful

I was out  
In the dust  
Kickin' weeds out from the trucks  
I was old  
You were young  
Who believe it ever come

Away  
My hands can take  
The trucks and breaks  
But there's nothing left of me

Show me something beautiful  
Show me something beautiful  
Show me something beautiful
