

Suffer Me

Nathaniel Rateliff

I was a drought and you were the sea
Would you laugh and cover me
I had my doubts so I laid in the reeds

Would you laugh and cover me
Would you laugh and cover me

Came up from the south cause he wanted to see
You would have and suffer me

It seems worse now is you can't hardly read
You would have and suffer me
You would have and suffer me

Can't believe now cause they won't let you be
Is there any love for me

You seem to crowd and you bend at the knees
Is there any love for me
Is there any love for me
Is there any love for me

Came in the house and they won't let you sleep
You would have to cover me
Think you know how, but you can't find the key
You would have to cover me

You would have to cover me
You would have to cover me
You would have to cover me
