Be Right Back

Nause

Break lights (yeah)
All I see is break lights
Coloring the dark sky
While I'm rushin' home to you
Too fast (yeah)
I drive too fast
'Cause I know we aren't gettin' all night
We aren't gettin' all night

We've been holdin' on to seconds every time
You don't wanna let me go but you gon' be just fine
But, baby, I feel you
I know that it's hard to hold the line
Though we know even if we tried
We can't stop time tonight

Right back
Before you even know it I'll be right back
You feel like you've waitin' for your whole life
But I'm on my way to you
Just lay back
Wait another minute, I'll be right back
Feel like you've waitin' for your whole life
Oh, but I'll be right back

Right back
Before you even know it I'll be right back
You feel like you've waitin' for your whole life
But I'm on my way to you
Just lay back
Wait another minute, I'll be right back
Feel like you've waitin' for your whole life
Oh, but I'll be right back

Stay up (yeah)
You feel like all you do is stay up
That's what I'm afraid of
Why you gettin' tired of it?
So lonely, mmh (yeah)
You must be sick of feelin' lonely
Every time you get home
Every time you get home

Right back
Before you even know it I'll be right back
You feel like you've waitin' for your whole life
But I'm on my way to you
Just lay back
Wait another minute, I'll be right back
Feel like you've waitin' for your whole life
Oh, but I'll be right back

Baby, I'm on my way to you
Are you still up?
'Cause I wanna be the same as yesterday
We know that we could start
But no one else can make us feel this way

Right back
Before you even know it I'll be right back
You feel like you've waitin' for your whole life
But I'm on my way to you
Just lay back
Wait another minute, I'll be right back
Feel like you've waitin' for your whole life
Oh, but I'll be right back

Right back
Before you even know it I'll be right back
You feel like you've waitin' for your whole life
Oh, but I'll be right back
