

Can't Erase

Nause

When the fire left our hearts
We were locked out in the dark
Nothing more to say
But we stayed a while
When you crashed right into me
I fell so hard I couldn't see
That we were strangers
But we stayed a while

High on the beach, the waves go down
I'm on my knees, hope you come around
I promise you that I won't go, I won't go away
I can't erase you from my mind
No one to blame for this waste of time
I promise you that I won't go, I won't go away

'Cause I can't erase you
'Cause I can't erase you

When the fire left our hearts
We were caught up in our loss
You said something
Made me stay a while

High on the beach, the waves go down
I'm on my knees, hope you come around
I promise you that I won't go, I won't go away
I can't erase you from my mind
No one to blame for this waste of time
I promise you that I won't go, I won't go away
'Cause I can't erase you
'Cause I can't erase you

'Cause I can't erase you
'Cause I can't erase you

I can't erase you from my mind
No one to blame for this waste of time
I promise you that I won't go, I won't go away
