

# Crystal Vision

Nause

Most nights  
I can't shake the feeling  
That my heart ain't beating  
The way it's supposed to be  
In time  
Like a record skipping  
Like a dead man wishing

I used to keep my hands in my pocket  
Head down when I was walking  
Now I'm cruising in the sunsets with you  
I used to be a real kinda emo  
But you tracked me down like Nemo  
Now I'm singing and it ain't just the blues  
Honestly I

Never been better  
Than I am right here, right now  
I'm good right next to you  
Never been better  
Better

Sunrise  
And my head is spinning  
I got crystal vision  
I feel magic in my feet  
Moonlight  
Looking like a movie  
A slow motion beauty

I used to keep my hands in my pocket  
Head down when I was walking  
Now I'm cruising in the sunsets with you  
I used to be a real kinda emo  
But you tracked me down like Nemo  
Now I'm singing and it ain't just the blues  
Honestly I

Never been better  
Than I am right here, right now  
I'm good right next to you  
Never been better  
Better  
Better

Never been better  
Than I am right here, right now  
I'm good right next to you  
Never been better

Never been better  
Than I am right here, right now  
I'm good right next to you
