

From Now

Nause

They were lookin' at us, an audience
Keep telling us what we can't do
But here we are, showin' them
Makin' them wish they were you
We've heard the most when it comes to this
Yeah, every shade of blue
But don't even care what they'll say
They think we're outta control
Yeah, truth me told

We know it
It's just the way we live
We own it
Can't stop, we love the thrill
We know it
It's just the way we live
We're grown up kids

We love the thrill

They were lookin' at us, an audience
Keep telling us what we can't do
But here we are, showin' them
Makin' them wish they were you
We've heard the most when it comes to this
Yeah, every shade of blue
But don't even care what they'll say
They think we're outta control
Yeah, truth me told

We love it
It's just the way we live
We own it
Can't stop, we love the thrill
We know it
It's just the way we live
We're grown up kids

It's just the way we live

We know it
It's just the way we live
We own it
Can't stop, we love the thrill
We know it
It's just the way we live
We're grown up kids
We're grown up kids
