Nause

But now you're here with somebody  
But you don't really seem happy  
If you didn't have anybody  
Would it be me? Could it be me?

If it ain't you I don't want nobody  
And I think we would be happy  
If you didn't have anybody  
Would it be me? Could be you for me

If you didn't have anybody  
Would it be me? Could be you for me

I see you looking at me while you talking to her  
It's in the air, it's not fair  
Do you think she can feel it, is it something she [?]??

No it's just not fair  
That I'm looking right back at you  
Can you feel it?

But now you're here with somebody  
But you don't really seem happy  
If you didn't have anybody  
Would it be me? Could it be me?

If it ain't you I don't want nobody  
And I think we would be happy  
If you didn't have anybody  
Would it be me? Could be you for me

Somebody, somebody  
Somebody, somebody  
Somebody, somebody  
Would it be me? Could be you for me

If it ain't you I don't want nobody  
And I think we would be happy  
If you didn't have anybody  
Would it be me? Could be you for me

If it ain't you I don't want nobody  
And I think we would be happy  
If you didn't have anybody  
Would it be me? Could be you for me
