

# Summer Hangover

Nause

Wanna tell me how your summer has been  
We haven't really talked about it  
I really haven't asked about it  
I did just fine without it  
Won't tell you all the places I've seen  
Feel kinda bad about it  
Nothing I regret about it  
Try to dig deep, but I won't allow it

How, can I feel like I did yesterday?  
When the sun's away  
Our love, wasn't strong enough to stand the rain  
Who's to blame?

(How, how?)  
Worry it'll be over  
(How, how?)  
Summer hangover  
(How, how?)  
Don't worry, it'll be over  
(How, how?)

In the end we had nothing to gain  
Let's not fight about it  
Now's the time to drop it  
Try to live without it

No time to be waiting  
We waiting for tears or laughter  
Then just close the chapter  
I hear the songs out there

How, can I feel like I did yesterday?  
When the sun's away  
Friday, thirsty for another love  
One not enough

(How, how?)  
Don't worry, it'll be over  
(How, how?)  
Summer hangover  
(How, how?)  
Don't worry, it'll be over  
(How, how?)  
Summer hangover  
Don't worry, it'll be over  
(How, how?)

Don't worry, it'll be over  
This chilly October  
No body showed up  
Don't wait for your summer  
It's just getting harder  
Harder and brighter

(How, how?)  
Don't worry, it'll be over

(How, how?)  
Summer hangover  
(How, how?)  
Don't worry, it'll be over  
(How, how?)  
Summer hangover  
Don't worry, it'll be over  
(How, how?)
