

Ball In Peace (Outro)

NAV

Fuck 12
Man I know they did it
Can't believe they really just took my man's
Shit was good while it lasted
We had some fun
Now New York will never be the same again

You was whooping people ass got me banned from little sister and I didn't give a damn
Never thought that I would see the day they put your Maybach inside a ambulance
I'm hurting I miss my Sleeze
I hope you ball I hope you ball in leave
Can't get you off can't get you off of my mind
I wish I could call I wish I could call you one more time

What were you running away running away from
Proud you made it out a long way where you came from
I'm tryna find someone to take out this pain on
I wish I could turn back time so I can hold on

I see you in my dreams
Falling away from me
I never met someone that's loyal
Ima just keep shit immaculate for you
I always made sure that you ate good when it's time to eat
Had a feast from nobu to Jue Lan until you fell asleep
When I came to your city I kept you with me for the whole week
Ever since you been gone I'm staying awake I can't get no sleep

Fuck 12
Man I know they did it
Can't believe they really just took my man's Shit was good while it lasted
We had some fun
Now New York will never be the same again

You was whooping people ass got me banned from little sister and I didn't give a damn

I was caught up thinking everybody real till you told me something that no one told me
Every time I sprinkle grabba on my weed I'm thinking about you so I'm rolling a Joley
You was always down to ride with me when these people acted like they didn't know me
Fuck you was doing running from the cops you was driving your whip like it was a stoley

I see you in my dreams
Falling away from me
I never met someone that's loyal

Ima just keep shit immaculate for you
Till I fall out ima ball out till the end
Ima miss my friend until we meet again
I wish that you died to opp so I could drop about and start to fucking gearin
