

Demons In My Cup

NAV

All I need is some ice, I'm pouring my demons in my cup (Skrt)
Smoking on biscotti, I just told Scotty to beam me up (Beam me up)
Walk anywhere with my chain 'cause I know I'll never get touched
Think about the people you love in your life 'fore you think about beating me up (Yeah)

I'm a big dog, you a pup (Pup)
Riding around with sticks, baby, I'll slap shots like a puck
I'm staying away from suckas lately so don't even try dapping me up
You can ask about me in my bank lately, they gon' tell you I'm running it up
(Running it up)

Park a brand new coupe and I hop out
My ice on gliss when I pop out
Go electric on Tesla, I rock out
Take a perc for the pain and go black out
Fucked a bitch of the Henny and pulled out
My girl in her place, I put my foot down
With no seasoning, beef getting cooked now
Tryna play with us, he gettin' put down
Feel like every day land on a pay day
When I'm drunk I be counting on DayDay
Play me music whenever they see me
My car new and it can't play a CD
Catch a play and act like I don't know it
Could be nervous I'm never gon' show it
Keep a shooter to keep me at ease
I know Stix won't hesitate to blow it

All I need is some ice, I'm pouring my demons in my cup (Skrt)
Smoking on biscotti, I just told Scotty to beam me up (Beam me up)

Hit a lick, thought he'd get away easy
Dropped a lil bag on his top
When they caught him they gave him a figi
Now his family turn into opps
If they shoot at us, we ain't gon' panic
We do a good job at managing damage
Ready for drama, we staying with cannons
Beat up his block until he can't stand it
Told lil' mama I don't go on dates
Staying low, you gon' barely see me out
She pulled and I painted her face
Now she found out what hanging with me 'bout
Used to double my cup everyday
When I pissed, it was Codeine I peed out
Write my lyrics with what I see daily
I make sure there's nothing I leave out

All I need is some ice, I'm pouring my demons in my cup (Skrt)
