

# Nothing On Me

NAV

They hatin' on me cause I did on my own  
Yeah, I did it by myself  
Got me stressing, I just put a half an addy on my tongue and let it melt  
Sometimes I can't handle all the pressure  
Pop a couple bars, i wanna go to sleep forever  
Pour me up a four in any place in any weather  
My squad is full of rockstars and they roll with heavy metal  
I just shed a tear, hit the diamond on my bezzel  
The ones who share a blood with me, the fakest people ever  
I'm just trying to make it and they're wishing I would settle  
You get a little money, thinkin' you worshipping the devil  
I can take you to the water  
You ain't drinking? I can't help you  
Just cause I say I trust you that don't mean I don't doubt you  
You wanna change your life you gotta change the people around you  
I just fucked your bitch, she said "I'm so glad that I found you"

I made her pop a pill then I made her pop another one  
Passed out on your bitch and when I woke up she had nothing on (she had nothing on)  
I could drop ten hits and they gon' say they want another one  
Shitting on my name because i made it, they ain't nothing on

They got nothing on me  
They got nothing on, they got nothing on  
They got nothing on me  
They got nothing on, they got nothing on  
They got nothing on me  
They got nothing on, they got nothing on  
They got nothing on me  
They got nothing on, they got nothing on  
They got nothing on me

They see the money coming my way  
Now these bitches all in my face  
You got nothing on me, shouldn't have stunted on me  
Now they wanna see me cause I'm getting paid  
Always feel better when in L.A  
Cause they wanna do something where I stay  
I gotta live forever cause I can't be replaced  
My shoota 15, 16 on his waist  
Say the wrong thing and I might get you blowed up  
All these bitches wanna see a brown boy glow up  
Remember me and Frost on the road eating cold cuts  
Now when I'm feeling down all I ever do is pour up  
I was in the Honda bumping Kiss Land  
Met Abel and he told me I'm a sick man  
I'm gonna spend like 20K on a wristband  
If I see your girl, yeah, she might go missing

I made her pop a pill then I made her pop another  
Passed out on your bitch and when I woke up she had nothing on  
I could drop ten hits and they gon' say they want another one  
Shitting on my name because on me they have nothing on

They got nothing on me  
They got nothing on, they got nothing on

They got nothing on me  
They got nothing on, they got nothing on  
They got nothing on me  
They got nothing on, they got nothing on  
They got nothing on me  
They got nothing on, they got nothing on  
They got nothing on me
