Fed up, tired of givin' handouts
They said I didn't have the look
But now everywhere I go, I stand out
I round the count, everything panned out
Lieutenant inside my city, I got a lot soldiers that shoot and report to me
Always prepared, I'm ready for the smoke

Everywhere that I go, I keep a torch with me
Booted off the molly, give her twenty missed calls
Woke up and she told me I'm crazy
Everybody spendin' my money
But if I go broke then who gonna save me?
Everyday I feel like my time runnin' out
Have a problem, sit down, I ain't lazy
Ain't nothin' change but my chains and my chains
Make the money, but I won't let it make me

Can't take care of me (Of me)
