

apprehension

Navy Blue

Yeah, yeah, yeah
Navy, Blue, truest

Apprehension in the air
Sister built strong
Money was scarce, now we bring it home
Momma always there
We, been alone
Grandma on the chair
Now, look at me, then look at you
We different seeds, growin' different roots, good yute
Juici Patties better than We Jam in my opinion
Always matter, shouts to Shaka off Adams
My staff in the earth... and then appear a chasm
Can't fathom, phantom of the opera
I was dancing with my heiress nigga
I'm a pharoah, if you lookin' can't find him
Can't find him, all these spirits locked inside me
Put me on a sunny path
Night fall, then the stars do, guide me to the water
Got the face of my father, hands of my fathers
Ancestors drink water from the altar
Give myself to the water, floatin' on the surface

I hardly had a belly full
Never knew, wanna buy a set of, hand-me-downs and shoes
They brought the yule tides in July...
