

# Breathe

## Navy Blue

Word, word  
It's Navy Blue the Truest

Something 'bout the subconscious  
Why I hold my tongue hostage?  
Twenty days till the sun blossom  
Took steps out my own casa  
Classic, tragic  
Nah, I'm better off alone probably  
Never me, I can't get this shit from nobody  
Couple weeks away  
I pray that I don't never pass this worry on to nobody, we gifted  
Inner visions clear, I'm tearing up my own body  
Leaves falling, rake it up, Nicki and Yo Gotti  
Stop it, I be sitting on my own nodding  
Nothing isn't free, a "Grief Pedigree"  
I know that Ka got me, I know he fine watching  
I know the stakes high  
Sun glimmer make way through the sky  
Take Sage for example, fallen victim to his pride  
Papa on a mantle  
The warmth of his smile bring tears to my eyes  
The war of a long life, cry if you gotta  
Most the trauma tied to my father  
Parallels of light shining on me  
A knight in shining armor  
Ignite the plight and karma  
Despite the pain and charmer  
I can't breathe, rest in peace to Eric Garner  
Worries like nothing that I harness  
Tarnished, talking dramas in the armpit  
Target on our body

Uplift  
A-Alikes be a light, see a light, G's align  
Register and heed the signs  
Chain the devil, free the mind  
However far that the length of the coin extends  
Fails to measure all that matters most in the end  
One way out and one way in, to be is to continue  
The curtain call is prelude, Bey and Blue  
Waves that shoot, from the ocean of a four by four  
To biting beats to the Cote D'Ivoire, any other port of call  
To open water where the ports are gone raw  
Drop anchor faint to civilize the danger  
Contemplate the heavenly arrangement with amazement  
The sun remains greater than the laboratory laser  
Sciences advance but don't advance enough to change it  
Stop it with your rockets, we already on a spaceship  
Three C's for your consideration  
All is, contact, cosmic, constant

You in the place to be  
You in the place to be  
You in the place to be  
We in the place to be  
I'm with you and you with me

And that's the place to be  
You with you and I'm with me  
We in the place to be

Please  
The condition of the people won't change  
Till they change what's in themselves  
The condition of the people don't improve  
Till they improve what's within  
The condition of the people won't change  
Till they change what's in themselves  
The condition of the people don't improve  
Till they improve what's within
