Navy Blue

Navy, Blue, the truest

Joseph had hands I never seen
Navy in the vanguard, navy in the forest green
His life did exceed his palms
Legs stagger, [?]
Young age, know things I ain't supposed to know
More life, more pain, tryna cleanse my soul
Peace, more rain when I'm steppin' home
Fear, reappear watch the blessings go
You was never there when I needed you
I could count the years when it hurt the most
Strength, wish Ben was an honest soul
I wish George was an honest soul
Growth, these words, know they hurt to hold
Grace, give thanks, know I'm not alone
Grief

Peace, is all that we seek
Dreams, live, die and repeat
Love, is all that I need, know it's all that we need
Peace, is all that we seek
Dreams, live, die and repeat
Love is all that we need, love, is all that I need, love

These days, swear they tear me apart
'Cause most them nice people really scary at heart
I was there, know I cared from the start
Born with the struggle from these parents of ours
(It's all that we see)
They be gazin', they compare me to stars
We ain't familiar with merrier talks
I threw away my carrier card
'Cause these calls never carried me far
Always hogs on the block 'cause the area harsh
Backstage, my black face can be what barriers off
But on the stage, I think I'm nearly a god
We know the truth, so who these niggas puttin' fear in your bars?
Why you making niggas scared of your art?
I don't really like to share what I guard, but know it
I'm just moving with a glare in my thoughts, I'm golden
I don't really like to share what I guard, but no

Yea, yea, yea, yea, yea, yea uh

Obvious sin, I know it was true
Trust in this and this
And all this bullshit you keep subliminally saying
Under your breath, don't speak under your breath
I'm one man, I'm flesh and blood, I can die like anybody else
Just come tell me what's good, and we can fix it up
Please figure it out
If you wanna shoot me, shoot - if you wanna run me, run
Whatever you wanna do, we could do blood
But I'm not scared, I'm not ru...
Look, you come tell me what you gotta...
Jus... just tell me what you really need to know bro

Just come tell me what you need to know bro
You're grown men, and grown women, god...
