

## God's Magnetic Pull

Navy Blue

The earth turns with a heart so full  
Ain't no telling when it's time, God magnetic pull  
The earth turns with a heart so full  
Ain't no telling when it's time, yo ,yo

Had to learn, keep a chain tucked  
I been giving praise so, this ain't just luck  
Fuck's up  
Something straight, sun's up  
The sunrays beam  
Ray Lewis 52, I seen a raven in the tree  
Come on I know you knew I grew  
Simone Nina, my [?] got the same features  
Alarms ringing can't nobody sleep  
Tame the conscious beast, the blessings stayed [?] to leave  
Trust it was hard to be simple  
Nothing guarded me simply  
I held a dagger I ain't even mention it  
My own doing in my writings and my stoic movements  
Shadow sightings never slight 'em gotta double take 'em  
Double cross on mine ain't got the time to feel awake kid  
It's just a phase

I was taking my time so amazing and graciously stretch for divine wisdom  
Damn the heroism Navy just another soul  
A special spirit, blessings near wherever he go  
My memory froze carve the tap of the stone  
Charms a marrowless bone, scorn to reap what I've sown  
There's more of me to atone  
Charms a marrowless bone, scorn to reap what I've sown  
There's more of me to atone  
Peace

The earth turns with a heart so full  
Ain't no telling when it's time, God magnetic pull  
The earth turns with a heart so full  
Ain't no telling when it's time, yo ,yo  
The earth turns with a heart so full  
Ain't no telling when it's time  
Ain't no telling when it's time, God magnetic pull
