

Night Crawler

Navy Blue

It will never take no time with both eyes
See clearly my hope rise, I deep dive
My appearance is beautiful and it's all mine
All there is precious smile from my parents
Their parents, refugees and truth sayers
Pops beard, brown skin and woolly hair
Take my life, never fam, I wouldn't dare
Since I was five a wise man I'm well prepared
To heal those who needed me, it was only fair
That I do, I wasn't new to breathing air
Play the fool, resolution through quick glares
Repetition my father told me to say a prayer
East stand, just a yute reading Voltaire
French evil giving people the quadigear
Not equal, most my people on welfare
Shit deep, it's psychological warfare
In these streets, never paying a full fare
Just hop, hop scotch the dual squares
Both feet, sink deep, peel back
Another layer, exposed, Navy known to go there
Not safe, my grace, my face
My hate and my love, my shame
My pain not tamed, I got saved
Sun rays, Sundays to come play
Tongue tied, no words, it's just rain
Strong wind, stuck up in the same place
My veins blew blood, Ku Klux
Stay sane, truth tucked, maneuver
Through distain, disrupt which way is up?
My downfall is short, sweet, ten toes
Two feet, two hands, quick scan
Who is he?
Who is he?

Top to bottom, I was running with the problems
Centrism, the world is still revolving
Around the sun, I wore a ton, I'm all in
I'm all in
Regardless, I couldn't give my all
I was stuck at the bottom of the lake
Tryna find my way to the surface
It hurts me just to speak my truth but it's working
Huh, but it's working
Uh, top to bottom, I was running with the problems
Centrism, the world is still revolving
Around the sun, I wore a ton, I'm all in
Yeah, yeah, I'm all in
