

## no more...

## Navy Blue

Recognized my growth when he died  
Only absence was the twinkle in my eye  
Paralyzed, better yet I'm petrified  
Sun pouring in, counting blessings in disguise

No more, I don't feel it no more  
I don't fear you no more  
All this grief that I've known  
Said I don't feel it no more  
Hope we see tomorrow  
I don't fear you no more  
I don't feel it no more  
I don't fear you no more  
All this grief that I've no known  
I don't feel it no more  
Hope we see tomorrow

Race to my downfall  
My hands on the hot end, then they bounce off  
Navy blue don, soul stand tall  
I never moved on from looking at his corpse  
These black hands they remind me of war  
Hand me the torch, must I offer still waterfall  
My ancestors in it for the long ride, I demand lessons  
No use in the bees when my mere essence bear blessings  
Yea it's true, I spent days in the chair bredrin  
High frequency, only few can hear heaven  
Only few can hear heaven  
Yeah, time is moving still

Soul rot from the inside, abuser's guilt  
I was lost in a field  
Hereditary depression, dawg I know its real
