

Shine

Navy Blue

Yea

Past long gone when I last saw moms
It was yesterday I never stay in LA too long
Gotta make it east, the crib missin' of the little things
I lost for the weak peace, step light, Solomon feets
Seven hundred feel I couldn't feel the breeze
Rice and beans I never scarf a chopped cheese
The scarf double F and the sweater out of Beams
The coat was out of Loro Piana, know what I mean?
You know the boy drip different
And I came up out the mid district, you gotta listen closely this is
history
In the makin', I been this way, way before I turned 18
I took it further than it may seem
Interrupt your daydreams
Back to life, back to reality, this the life I got, I live it causall
y
I'm bout relief, that's the only way I'm trying to be
At ease brother Malcolm speaks
Set aside emotions, uh, bet I know this how it gotta be
That's not a thing, I'm troubled cause I'm chosen
Almost lost me to the ocean, took it as a moment, an omen
Took it for what it was, I couldn't justify erosion, uh
Now I'm rotating, landed where I started
Got a little confidence from where I first departed
Nigga I'm a artist Painting over scars, all my stars do align
Feel the grace within my bars nigga
That's a given bro the globe keep spinnin'
In and out the anguish, I ain' got a limit
Excavation isn't painless or pointless
I'm just sayin' (just sayin')

Fuck whatever you thought (Thought)
Surrender to the facts
In the ways of the heart
You can't stay in the dark
Fuck whatever you thought
Surrender to the facts
In the ways of the heart
You can't stay in the dark
It's too dark (too dark)
Fuck whatever you thought
Surrender to the facts
In the ways of the heart
You can't stay in the dark for long
It's too dark
Don't go there (uh)
