

strain

Navy Blue

Cross my heart, cross my chest

Let the lord, we playing chess, shit scatter, don't impress
And I hope it rain today, cause I hate the sunny day
Smoke take the pain away, drift away
Leave tomorrow over blood in my water
Put my head on the altar, pray these danger ain't take me
Black hoodie through the night, why these demons chase me
Keep the light up out my face just to [?] name
And I never meant to hurt you, I just love you, don't complain
Don't complain, I just love you, don't complain
