

## **Suite 11**

**Navy Blue**

Hunnid times a day I give thanks saying none of us alone (we no  
t alone)

When I'm down, give praise

Just saying, spent the day skipping stones (skip stones)

My heart so full can't part, true my Papa made it home

Looking at my problems like pray

I was stretching back and forth

Hunnid times a day I give thanks saying none of us alone (we no  
t alone)

When I'm down, give praise

Just saying, spent the day skipping stones (skip stones)

My heart so full can't part, true my Papa made it home

Looking at my problems like pray

I was stretching back and forth

Watch it all fall down to the ground

Karma looking like I told you so (told you so)

I know we making mama proud, pops proud

We all hurt, we so emotional (so emotional)

My head filled up with doubt, branched out

Found meaning, I'm supposed to grow (supposed to grow)

The issues we can't count, keep calm

Breathe, let the spirit nourish your soul (nourish your soul)

The issues I can't count, keep calm

Breathe, let the spirit nourish your soul (nourish your soul)

Please

Hunnid times a day I give thanks saying none of us alone (we no
