## Navy Blue

Sundown, wassup with sundown  
Yeah, wassup with sundown  
Yeah, wassup with sundown, nigga  
Yeah, wassup with, yeah

Done fall since in my pride  
When my shadow stretch higher than the hue  
Navy Blue, farther down with stress  
And I when I lay me down and sleep in my bed  
Trying to get these feelings up out of my crowded head  
I'm on the beat like I'm gettin' out of bed  
Love calls, sayin' all lies and all she said  
Yellow was a dress, brown was her legs  
Eyes in the stars, that's the life that we led  
I feel my best when we are happy  
Navy is the night sky of the moon looking at me (Looking at me)  
The mood fit like a glove  
Time is of the essence, like I'm Roy Jones Jr  
Gloves better get to steppin'  
I said what's wrong with my brother  
Nothin' new to us but you're ballin' true to me  
True to us, two of us, nothin' new to us  
When you're far, true to me, two of us  
Two of us, yeah
