

# The One

Navy Blue

You know I love you, you know what I mean  
We been through a lot, shit  
You know, we seen each other grow up  
And become who we are today  
And it's a lot and it's more than I could have asked for truly  
You're my best friend  
That's it, you know?

I knew you was the one  
Thinking who I would become  
I was praying for the best  
Now I'm only on the ups  
Depression had me down and out  
Had to grab it by the tusks  
No, I don't believe in luck  
Blessings all around me  
And I can't get enough  
Brodie, I don't give a fuck 'bout nothing  
But my family and loved ones, duh

I seek eternal love  
I was feeling dawn to dusk  
Bro, I'm in it all alone  
I keep living that's a must  
Sitting on these thoughts  
I was missing for some months  
I was swimming with my love  
In Vietnam, my god sent her from above  
I learn to listen to her, from her, 'til I'm in the dirt  
I wear the love I got for her  
Behind the shirt, what it's worth?  
I know I seen her lock up, what she feel  
Always here for you  
Always here for you, for you

I knew you was the one  
Thinking who I would become  
I was praying for the best  
Now I'm only on the ups  
Depression had me down and out  
Had to grab it by the tusks  
No, I don't believe in luck  
Blessings all around me  
And I can't get enough  
Brodie, I don't give a fuck 'bout nothing  
But my family and loved ones duh

Always here for you  
I'll always love you just like that light that's always there for you  
And loves you and guides you and speaks through you  
You know what I mean?  
Love you
