

Yeah

Light work no one told me that growing up might hurt  
Mama told me that showing up come first  
And the perks soon come after the peaceful way to hunt and gather  
Nothing got hurt in the making had my young heart racing in the basement  
My bars was never worth erasing  
What's done is done chiseled into stone  
I remember every time that I was missing home  
My first year with the unknown my last time hugging you was cold  
I guess we never know 'em till they gone  
I learned the most from my cousin Gabron he got close still repeating his wrongs  
You gotta grow bleed with your nose then your heart  
I knew that I was chosen from the start John Starks how a nigga play the point  
What's the point in living lavish if you spend it on a car A to B  
Bruh yeah I'm more A to Z all 26 of 'em who's above and underneath?  
At the same damn time been the same damn me plan B  
Danny and Colin this mega ramp speed  
Jeez I was out in DC [?] with the missy [?] that's how I eat  
This blue magic is Navy and QThree on the two's and ones I abuse my lungs chiefing

I don't need it cause the only thing I need is peace  
I don't need much at all it's not deep  
Never catch me cutting corners on the street  
I don't need it cause the only thing I need is peace  
I don't need much at all it's not deep  
Never catch me cutting corners on the streets nigga  
What you mean?
