

We Know...

Navy Blue

Dark denim with the cuff and G Fazos lay low
Better than you do
Immeasurable haze dark clouds brought the rain
And wash it all away to the sea still Navy
What the fuck you niggas on?
My nose itching from the tiger bone
Lifelong palm reading felt them though I don't see 'em
Where I'm from is not Eden
Catch me off of Pico eating
Cj'cs Roscoe's skies tacos many memories
The journey of a distant dream
Fit the shoes but you could never be me
Uh
Najee Genevieve Orange Soda Baby Keem
Whatever you deem worthy isn't really deep
It's on the surface listen as the city speaks mid city me draw
the curtains
Flip you like a Motorola razor blade cuts and scratches on the
shoulders
I'm out in Brooklyn like I'm Casanova I'm in another class of s
upernovas
The ballot of a dead soldier
Saw the devil in my empty glass of Hennessy it got me sober
I couldn't bare the spliff older
250 days older than I was caught a buzz off of moving forward
I'm high off life it's alright roaming through the night air
It's on sight
Uh
Better than you do
What the fuck you niggas on?
My nose itching from the tiger bone
