

# Heaven

NAYEON

I want you all to myself  
I know I'm not supposed to say that  
How am I supposed to hold back?  
It's so easy  
I don't want nobody else  
You know I always get what I want  
Hope you don't forget what you got  
The way you need me

You've been working too hard  
It ain't good for the heart  
Need to take this stress off, this stress off

'Cause, baby, it's been too long  
Since I had someone feel like heaven  
It's been too long  
Since I had someone feel like heaven  
Now, you got me up so high, I can almost touch the sky  
'Cause all that I'm wanting is just a bit of your love, baby  
It's been too long  
Since I had someone feel like heaven

You got me weak in the knees  
Tell me when you're falling asleep  
That you only dream about me  
Call me selfish  
You want me day after day  
Feels like I'm floating in space  
All of the stars above me  
Are telling me you're something

You've been working too hard  
It ain't good for the heart (Ain't good for the heart)  
Need to take this stress off, this stress off

'Cause, baby, it's been too long  
Since I had someone feel like heaven  
It's been too long  
Since I had someone feel like heaven  
Now, you got me up so high, I can almost touch the sky  
'Cause all that I'm wanting is just a bit of your love, baby  
It's been too long  
Since I had someone feel like heaven

Can I let 'em know we rock and roll? Tug of war  
We push and pull, woah, take it easy, we playing  
Don't wanna keep you waiting (Ooh, ooh)  
All the rules we break  
Combo, blow for blow, I bluff, they fold  
We take it slow, fickle innocence be fading  
Troublemaker make you double-take  
A heartbreaker, go on, let 'em know

'Cause, baby, it's been too long  
Since I had someone feel like heaven  
It's been too long  
Since I had someone feel like heaven

Now, you got me up so high (Ah), I can almost touch the sky (Ah)  
'Cause all that I'm wanting is just a bit of your love, baby  
It's been too long  
Since I had someone feel like heaven
