

## 2nd

Naykilla

Life was never been easier since you came  
Sittin' wishin' you were me  
Cause that ll make you understand  
Its a gift to be in love with you  
Its a gift to be in love with you

Can't wait to fall asleep just to dream about you  
But missing you tasted like nightmare  
But missing you tasted like nightmare

I wish i could make that night forever  
3 am wishing myself i were heather  
I were heather

But even being heather still got hurt  
He said do what you wanna do  
He said you're the main character  
But yet still made me feel like the second

Is there's a chance that made you happy  
Just because of my existence  
Existence
