

dEsTRoy yOu (AGAIN)

Naykilla

Step one I must to moving on
Step two I know that I wont be able to do that
Step three just let it fucking be
So I started to pretend that I'm not a lunatic

I'm such a mess
So I'm messing you up
So that's your new her
They said we look alike
I love that word get rid of her

I see me through her
You see her through me
I'll be back one day
To destroy you again
Cause you are my in-yun
I see me through her
You see her through me
Honey are you sure
No ones better than me
She just a back burner

Had so much power I'm holding back
But what the hell are we?
Drown me I can swim
I drown you, you wont live
I'm doing me better then she doing her

I see me through her
You see her through me
I'll be back one day
To destroy you again
Cause you are my in-yun
I see me through her
You see her through me
Honey are you sure
No ones better than me
She just a back burner
She just a back burner
I'll see you never

I've lived in your matrix
Now it's your time
I've been wishing you to be mine
Not a happy lifetime
