

Back 2B4

Nazareth

Don't look back...
Don't you ever look over your shoulder
Yesterday's gone
All you feel is another day older
No regrets...
When your heart has grown colder
Don't look back...
If there's anything life's ever told ya...

I'm not saying it's a crime
But just don't waste your time

What a wise man sees
And any fool believes
Whatever happen will be
And we never go back to before

And what we all should know
No matter where we go
Everything will show
That we never go back to before

Don't look back...
Don't you know that it's never again now
Look ahead...
If you want to find out how...

I'm not saying it's a crime
But just don't waste your time

What a wise man sees
And any fool believes
Whatever happen will be
And we never go back to before

And what we all should know
No matter where we go
Everything will show
That we never go back to before
