Nazareth

A burning fire in the winter's cold
A never ending story's told
A silhouette of a black dog haunts my mind

Straight from the shadow of a nightmare
You break the chains and you lose control
I saw that look on your face, it stays in my mind

I'm talking 'bout a
Change change change change
I'm talking 'bout that look in your eyes
Change change change change
I'm talking 'bout the devil inside

Rain, you fall in the darkness
You're damned in your time
And walking the line
Into the night out of sight
Dancing in the dark
You got under my skin
You're still on my mind

I'm talking 'bout a
Change change change change
I'm talking 'bout that look in your eyes
(Your eyes that make you see)
Change change change change
I'm talking 'bout the devil inside
(Those eyes that make you)
