

# Falling in Love

Nazareth

Techno fear is what it's like  
The metal takes you  
How do you feel

I'm falling in love  
I said I'm falling in love

Electric dream, all wired up  
Connection breakthrough  
My circuits gleam

I'm falling in love  
I said I'm falling in love

Connecting power  
Laser light  
Dark Machine  
Body's shaking tonight

Take my hand  
Because I'm falling in love

Cyber lust  
Addicted to you  
If only in fiction, it comes true

I'm falling in love  
I said I'm falling in love

My body's burning up  
A love shock whipping on me

Techno fear lightning strikes  
The metal makes you  
Scream tonight

Take my hand  
Because I'm falling in love

Power fuse  
Computer love  
Operation  
Running down my spine

I'm falling in love  
I said I'm falling in love

I'm falling in love  
I said I'm falling in love

I'm falling in love  
I said I'm falling in love
