

Little Part of You

Nazareth

I don't want to take you prisoner
Or do it against your will
I wouldn't ever take you over
Only want a little part of you
Only want a little part of you

I would never leave you stranded
Alone on some point of view
Couldn't ever hold you under
Only want a little part of you
Only want a little part of you

I know that the world
All it's diamonds and it's pearls
Could never buy you
Could never even try to

Wouldn't ever bring you sadness
Leave you standing in the rain
Never thought you would be easy
Only want a little part of you
Only want a little part of you

I know that the world
All it's diamonds and it's pearls
Could never buy you
Could never even try to
