

# Mind Bomb

Nazareth

We're giving you an alibi  
To legitimise your dark side  
So dial into the diatribe  
Standing up for your own kind

Fuel-deranged conspiracies  
Prey upon their thoughts  
The dumber that they seem to be  
The more opinions they have got

It's a mind bomb, baby  
And we are getting ready to troll  
It's a mind bomb, baby  
We are getting ready to roll

Generate another lie  
Consume the disenfranchised  
Every day brings a new fear  
And let them hear what they want to hear

Distortions of reality  
Designed to undermine  
Nothing's as it seems to be  
The blind will lead the blind

It's a mind bomb, baby  
And we are getting ready to troll  
It's a mind bomb, baby  
We are getting ready to roll

You break their hearts and minds  
And then you take their souls  
It's a mind bomb, baby  
Gonna get you under control

Constantly twisting the knife  
Exploit alienation  
Neither confirm nor deny  
Crazed capitulation

It's a mind bomb, baby  
And we are getting ready to troll  
It's a mind bomb, baby  
We are getting ready to roll

You break their hearts and minds  
And then you take their souls  
It's a mind bomb, baby  
Gonna get you under control
