

Push

Nazareth

I could climb up to the mountain I'd be ready to drop
Looking down upon a world that I dread
Just to build that girl a temple with her statue on top
And she's still give me a kick in the head

Push, push cos you make me do it
Push, push and you put me through it
Push, push, it ain't nothing to it
So if you really want to push me
Push me now

I could row across the ocean with a storm bearing down
And I really do believe I may die
Just to find that girl an island I could claim in her name
She'd still turn around and spit in my eye

Push, push cos you make me do it
Push, push and you put me through it
Push, push, it ain't nothing to it
So if you really want to push me
Push me now

Lightning may scorch the sky
I got nowhere to hide

Push, push cos you make me do it
Push, push and you put me through it
Push, push, it ain't nothing to to it
So if you really want to push me
Push me now

Say

Push, push cos you make me do it
Push, push and you put me through it
Push, push, it ain't nothing to it
So if you really want to push me
Push me now
