

# The Right Time

Nazareth

There's a man  
Walking down my street  
Wearing old worn out shoes

There's a woman  
Hanging out her sheets  
Singing out her blues

There's a kid  
In every classroom  
That's told they're no good

But if they hang on  
They'll be bang on  
They won't be misunderstood

When it's the right...  
Time in your life  
Got to be the right...  
Time in your life

You think you're on your own  
But you are not alone  
Just got to keep the faith

A dog will have its day  
Or so they always say

So keep on holding on  
You need to keep it strong  
And head for that place

A little peace of mind  
The day that you will find  
The time of your life

When it's the right...  
Time in your life  
Got to be the right...  
Time in your life

Now listen...

When it's the right...  
Time in your life  
Got to be the right...  
Time in your life
