Nananananana I'm with you
□□□ beautiful time
Always
My love

Do you remember that place, you really liked it
The doodles we left for fun
Are still there without change

We spent time
With you at by the window where the sun seeped in
I was next to you singing yeah

Your shoulder my shoulder
The touch that was above, like it was slightly hanging
I believe we feel the same

Every everyday was enjoyable
The starlight starlight that poured late at night
Our beautiful time
All right
After time passes later later
We look back, that time that moment
I hope you laugh like you always do
We are with you

You that is us yeah
Lay on the ground
Took off our shoes
Do nothing, the warmth we felt
When we stretched our feet to the sky
With you with you it's only you

Taught me how to float on top of the waves
Teach you the spot under the sky
Like the time we rolled on the hill
The days we didn't see the end
The day went on and on and on yeah

In your eyes in my eyes
If we slightly passed, that's all I need
All of your thoughts that were delivered

Every everyday was enjoyable
The starlight starlight that poured late at night
Our beautiful time
All right
After time passes later later
We look back, that time that moment
I hope you laugh like you always do

We are with you

Let's separate like yesterday
Like we will see each other tomorrow

When we look back
Like the panorama inside a movie
A beautiful time is drawn (so I'll be there)
All right (so I'll be there)
The time when you and I had a daily
Extreme happiness
All the time we are the same
We are with you

Nanananana yeah nanananana
You and I are together during every moment
We are this song we will sing

Nanananana remember
Nanananana I'm with you
Our beautiful time
Always
My love
