And my heart starts beating

Where I am?

When I close my eyes

It becomes a forgotten sea

When I just want to settle down heavily

You approach me like the moonlight and talk to me

I'm so up and down that I can't stop (Oh-oh)

I am full of unanswered questions

The very natural sense, oh

I feel like I am forgetting, oh

I've been searching for another meaning

Will we be able to see each other?

When I'm falling down, down, down

You always save me

The warmth that knew my feelings

Your breath that embraced me

It opened my eyes

Like a lost star

Every day I wander around

Your friendly hand

Following you, I am dreaming once again

Now because you are here, I'm breathing

Inside me

I'm facing myself, crouching down

The me that I have hidden and turned away

Feel like I'm about to drown

I'm not breathing more and more

Slowly tightening up on me

In the end, it is I who broke me down

I only know how to breathe with delusions

I'm in the deep end

It's pitch black, can you find me?

I'm so up and down that I can't stop

(I won't never stop, I won't give you up)

I'm nervous that I can't find my way

The moment we had the same dream, oh

I feel like I've lost it, oh

I've been searching for another meaning

Will I be able to move on?

When I'm falling down down down

You always save me

The warmth that knew my feelings

Your breath that embraced me

It opened my eyes

Like a lost star

Every day I wander around

Your friendly hand

Following you, I am dreaming once again

Now because you are here, I'm breathing

When I broke my heart

When I ran out of breath

I know you've been waiting for me

Standing next to me without saying a word

At the end of a distant wandering
You're my last chance to go back
I don't have any air without you
I know I'm no good without you
Baby, can you stay all night?

Yeah, you know
I'm always drinking beer
Before I meet you, still shaking me (Stupid Cupid)
Seeing you, I think, where's my time?
I don't need anything else please more
Breathing, inhaling all the air
Think about you
I reach out and hold you, who shined on me in the darkness
Go deeper and find the answer I want in the warmth I feel
Dive in, dive in, continue our journey (Oh, woah)

When I'm falling down down down
You always save me
The warmth that knew my feelings (Your warmth)
Your breath that embraced me
It opened my eyes
Like a lost star
Every day I wander around
Your friendly hand
Following you, I am dreaming once again
Now because you are here, I'm breathing

Here I am
When I open my eyes
I am at the end of a long night
It's warm when I feel our hands holding each other's
And my heart starts beating
