You come to me like a fever  
And destroy me  
Ain't afraid at all  
My world is shattered  
I begin to desire you

Call it playing with fire (Quit that)  
You have thorns (Hands down)  
The fragmented Crown (Take that)

That pure poison  
I took a bite and swallowed it all

Loving you is incomplete and dangerous  
Even if I stumble and go crazy in hatred

I love you and love you  
I want to hurt even more  
Desperately in this destiny  
Wild eyes all of your existence  
Girl you're my Favorite  
I burst into tears and fall apart  
When I kiss you in this heat  
Like a storm You're my Favorite  
Without regrets baby

A dark night  
When you coming with a storm  
Come to me like you'll swallow me up  
Just watching you  
Never satisfy my soul  
You don't know me yet

Roses are red (See that)  
But not so delicate (Hands down)  
My heart is broken into pieces (Take that)  
In this disastrous night,  
I take the price for wanting you

How can I  
Not want you?  
My heart when you touch  
I shiver in thrill

I love you and love you  
I want to hurt even more  
Desperately in this destiny  
Wild eyes all of your existence  
Girl you're my Favorite  
I burst into tears and fall apart  
When I kiss you in this heat  
Like a storm You're my Favorite
