Yo Simon says hurry up
Spread out on the streets
Flap floop doop
Once you pause for a moment, I aim towards you

Hands up, turn around (Hands up Shake it)
Even if out of breath here but keep on running
Why are you looking again and standing there? You seem so absent
Why that scared expression again?

I want this

I memorize the order, I'm God
You guys are enchanted wow
I say we real so sexy, NCT, know you can't break me
Someone can curse me, hu
Bless me ah-choo
Simon says be cool
Don't be such a fool

Simon says we're a real vibe killer
Simon says we're a real vibe killer
You guys are mine mine mine mine
You guys are mine mine mine mine
We don't need those words from that time
We don't play no mind

Between cars that have a tight space between them
We open the road, siren
On the last floor of your heart
Stay all night and run
Faster than anyone else, it's all behind you
No hesitation, I'll run to any place

To the sounds that block us bye bye bye
Get rid the things that are bothering you and let's play all night
Don't care what anyone says

I memorize the order, I'm God
You guys are enchanted wow
I say we real so sexy, NCT, know you can't break me
Someone can curse me, hu
Bless me ah-choo

Don't be scared, you are the only one blocking yourself
Don't get mistaken (Don't be scared)
Today, we break the rule
Open your eyes and wake up
Fall deeply into this moment
Between fantasy and reality, the moment you find the real you
Yeah bye man
