Where is this place? I'm getting curious
Don't you think it's a little dark? I'll turn on a light Switch
A new passage another chance
Do you want to go with me to the end of this maze?
Even if you pass it, it's an endless sail
Even if it's far, you want to reach this place
Oh no you want to reach this place

I wonder what you can see at the end of this crossroad
I wonder what you can see when you pass this obstacle
It feels good just taking this first rough step
That dream that's far away keeps on getting closer

Even if a dead end, a tangled path blocks me
The dream that I draw and fill up acts as my map
The unfamiliar stares I get make me feel good
The light I saw far away is getting closer to me

I see it right in this moment
My color is slowly getting absorbed
Anything that's too difficult I just pass
It's gonna get closer if we're together everyday

Even if you pass it, it's an endless sail
Even if it's far, you want to reach this place
Oh no you want to reach this place

I wonder what you can see at the end of this crossroad
I wonder what you can see when you pass this obstacle
It feels good just taking this first rough step
That dream that's far away keeps on getting closer

Even if a dead end, a tangled path blocks me
The dream that I draw and fill up acts as my map
The unfamiliar stares I get make me feel good
The light I saw far away is getting closer to me
