

All Over

Ne-Yo

Do what you want baby do what you want
Dip over there put your hands in your pockets watch me walk over to the door and lock it put your eyes anywhere let me quickly give you good reason to stare I'll walk it back to you sexy and slowly we can do whatever you want to only if you follow my command stop I didn't say you could use your hands in this game there is a lesson to be told the purpose is to explore the power of your very thoughts.

Let's see if you can touch me with your mind baby think about it so hard till I feel it all over (all over) feel it all over (all over) can you move me with your mind baby think about it so good till I feel it all over (all over) feel it all over (all over)

Standin at attention but you're still sittin baby I can tell that the thought of it is gettin kinda good to ya think of everything you want me to do to ya don't close your eyes or you won't see me dancing watch how I move baby is it enhancing the stimulation you feel grindin on you but you better stay sittin still

Give it to me first do it mentally then the physicals sure to come let's do it telekinetic promise you won't regret it baby once the game is done come take what you want
