

# Breathe

Ne-Yo

Oh, breathe, oh, breathe, oh, breathe  
Oh, breathe, oh, breathe, oh, breathe  
Oh, breathe, oh, breathe, oh, breathe  
Oh, breathe, oh, breathe, oh, breathe

Ooh I, love when you resist  
Say when you make me work for it, you know I put in that overtime  
I can feel your body tense up when I bite your lips (when I bite your lips)  
Uh, did it hurt so good? Girl, did it hurt so good?  
When I grabbed your neck and pulled you close to me  
Like I said I would  
Let me, check your status, girl  
Baby girl, to me, you taste like you're ready  
Is you ready, baby?

Baby, breathe (oh, breathe, oh, breathe)  
I need you to breathe  
Baby, don't pass out on me now (oh, breathe, oh, breathe)  
Baby, breathe (oh, breathe)

And when I kiss right there, don't hold your breath  
Might back it up, baby girl, not yet  
I think I'm gon' start right here with your neck  
Started working my way down  
When I get there, baby girl, don't hold your breath  
I want you to fill it all in your chest  
I think I'm gonna start right here with your neck  
Start working my way down  
On my way down, yeah

She call me daddy, when I put her legs near her head, mmm (oh, la la la-  
la la la la la)  
She love it when I put in that overtime  
We end on the balcony, we started in the bed, mmm (oh, la la la-  
la la la la la) (slow it down)  
And it hurts so good (so good)  
We go back and forth but still it ends the same  
When you're calling my name, girl (calling my name, baby, say my name)  
Tell the truth, baby, I love this little gameplay  
But I could see it on your face

You need to breathe (oh, breathe, oh, breathe)  
I need you to breathe  
Baby, don't pass out on me now (oh, breathe, oh, breathe)  
Baby, breathe (oh, breathe)

And when I kiss right there, don't hold your breath  
Might back it up, baby girl, not yet  
I think I'm gon' start right here with your neck  
Started working my way down  
When I get there, baby girl, don't hold your breath  
I want you to fill it all in your chest  
I think I'm gonna start right here with your neck  
Start working my way down  
On my way down, yeah

Baby, breathe

I need you to breathe  
Baby, don't pass out on me now  
I need you to breathe  
Oh, oh, oh, oh  
Baby, don't pass out on me
