Everything's All Right

Ne-Yo

Everythings alright
Travelling across this desert
And my horse died
Middle of nowhere but sun shines
Like samari
Though it's truely beautiful
It just may take my life, my life
But everythings alright
Everythings alright
Everythings alright right now
Everythings alright

Everythings alright
Warm inside the day time
Btu it's oh so cold at night
The wind hits my skin like needles
But I'm just fine
Sleeping beneath the lovely stars
And pray for morning time tonight
Because everythings alright
Everythings alright
I said everythings alright right now
Everythings alright

Everyday that we live is a blessing and every night is a gift
If you wake in the morning know that not everyone did, not ever
yone did
So everythings alright

Everythings alright
Everythings alright right now
Everythings alright
Said everythings alright (2x)
I said everythings alright right now
Everythings alright
Said everythings alright
